HVAC coil & pan sanitising cleaner concentrate

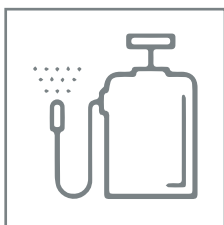

Air-clear

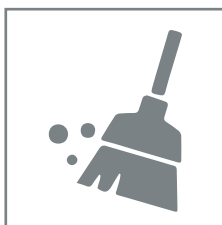

ONE SHOT

Isolate the unit
before cleaning.

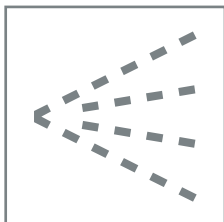

Spray Air-clear into
the coil & around
the pan.

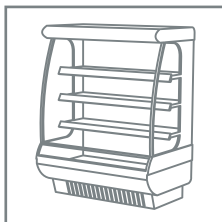

Wash around the
coil & pan removing
all debris.

Prevent debris from
entering the drains.

Spray again around
coil & pan.

Allow to dry naturally.

Non-corrosive, safe on all metals, aluminium, and copper. Safe on all surfaces.

INGREDIENTS; Aqua, Urea, Benzalkonium chloride, Active ingredients <1% by volume.

CAUTION; Keep out of reach of children. Do not swallow. Avoid eye contact. In case of contact with eyes, rinse with water, if swallowed, wash mouth out with water and seek medical advice if symptoms arise or persist. Use biocides safely. Always read the label and product information before use.

STORAGE; Store upright at room temperature. Do not allow to freeze.

CONCENTRATED

80:1

Makes 8 litres

Air-clear breaks down the biofilms that allow bacteria to survive. Biofilms that develop in HVACR units reduce coil efficiency, increase metal corrosion, and secrete drain blocking slimes. Cleaning with Air-clear will deliver a long lasting coating on the coil and pan to prevent and control biofilms.

Effective to BS EN1276
& EN1650 standards.
NSF Registered for food
preparation areas.

Nonfood compounds
D2

Name	Air-clear concentrate
Product Code	ACC100
Weight	115 grams
Colour	Light blue
Soils	Dust, Airbourne pollutants, bacteria, mould, slime & biofilms
